

**Spring 1 2025** 

# Welcome

Next week is National Apprenticeship Week, so pages 2 & 3 of this edition of the newsletter will focus on this exciting route.

Since the last edition all U4 pupils have selected their GCSE subjects and the U5 will be making their final A level choices by Monday. Good luck to them all.

The L6 and their parents attended an information evening on Higher Education, which included a talk from the University of Southampton, as well as information on medical applications, applications to study abroad, apprenticeships and Oxbridge. We hope that they found the evening useful and are starting to really consider their next steps. Please click on the links to access the slides from the evening.

If any pupil would like to book a 1:1 discussion with Mrs Ryckaert, please email <a href="mailto:lucy.ryckaert@freemens.org">lucy.ryckaert@freemens.org</a>.

Oxbridge Applications Talk - 30 January

Last week U5 and L6 students and their parents, were invited to a talk from Oxbridge Applications. They explained what makes the Universities of Oxford and Cambridge unique and how to make competitive applications. If you missed the talk, click here to view the recording (via Freemen's log in only) or see the PowerPoint.

On Tuesday 14 January U3 pupils spent the day creating innovative board games in teams, brainstorming original concepts, exploring themes, identifying target markets, and crafting promotional strategies. Using recycled materials, they brought their ideas to life and later tested and played each other's games. Their energy, creativity, and teamwork were outstanding

**Spring 1 2025** 

Did you know that degree apprenticeships allow you to earn a bachelor's or master's level qualification through a combination of work and study?

## The Sixth Formers' Guide to Degree Apprenticeships

The 30-minute programme accompanying The Sixth Formers' Guide to Degree Apprenticeships introduces the 'earn as you learn' route to a university degree or professional qualification.

## Click to here to access the fact sheet

### Tips on Applying for an Apprenticeship

Applying for degree apprenticeships is a long process and you will probably need to complete several applications to get the ideal position. You can apply for an apprenticeship alongside applying for a university place through UCAS.

#### What to do Now

Spend time doing research and looking at the area and individual companies you would like to apply to. The sites below have information on apprenticeships that are available now, so you can look and see the sort of apprenticeships that will be available when you want to start applying. However, it is also advisable to look at company sites directly and link with them, via social media, Linkedin and, if possible, through work experience, insight days or work shadowing.

#### What is an Apprenticeship?

An apprenticeship is a paid job where the employee learns and gains valuable experiences. Alongside on-the-job training, apprentices spend at least 20% of their working hours completing applied learning with a college, university or training provider which leads to a nationally recognised qualification. Degree apprenticeships are offered by universities and other higher education providers. They contain either a full degree or degree-level qualification and go up to master's level.
